TROLLEY WAR JARS PHOENIX.

City and Street Car Company in Controversy.

Railway Refuses to Carry Out Paving Program.

Unionization of Cotton Pickers Becomes Failure.

PHOENIX, Nov. 20. - War has een declared between the city of Phoenix and the Phoenix Street Railway of Arizona. It happens Railway of Arizona. It happens that the company claims to be making little or no money, operating costs having risen and no change having been made in the nickel car fare. On this basis, there has been refusal to pave between the tracks in the course of the extensive street improvement that has been known in this city for several years past. The city did not want to take over operation of the street railway system, so has not insisted on the paving, which includes a long-disputed section on Washington street, leading to the State Capitol.

The company also has falled to obey an order of the Corporation Commission to double track to the Capitol.

obey an order of the Corporation Commission to double track to the Capitol.

The latest row's location is in the northeastern part of the city, where the railway company has refused a demand of the City Commission to lower its tracks at the croasing of McDowell road or to raise its tracks to paving level on Monroe street. The company claims to own its own right-of-way along Third street in Evergreen Addition, a claim denied by the City Attorney. There is threat that the tracks will be blocked by the city authorities at points where the city grade is not observed. A few weeks ago a bus line tried to get a franchise of operation in opposition to the trolley company as far as the Indian School on North Central avenue, but its application had no general support and was denied by the City Commission and by the Corporation Commission and by the Corporation Commission.

UNIONIZATION FAILS. Thus far in the picking season there has been little indication that

Thus far in the picking season there has been little indication that results have followed the attempted unionizing of pickers during the summer and early fail.

It was said that about \$600, or over half the valley Mexican pickers at that time had been taken into the "Federal Union," a Spanish-speaking organization, inaugurated by Lester Doane, an organizer of the State Federation of Labor, and Rudolfo Sanchez, the latter serving as secretary-treasurer.

While there was no talk of striking, there was an open statement that the pickers would ask for \$4 a day of eight hours, instead of the compensation of 4 cents a pound for seed cotton, offered by the growers. This scheme does not appear to have been based upon the expectation of dollar cotton and to have been paralyzed by the slack demand for the staple and the attitude of some of the growers that no haste need be made in the picking till better prices were in sight.

Some discouragement of the idea of fully unionizing the pickers may attend the arrest here of Sanchez, who is charged with having evaded the draft at Calexico, after having been in the United States for eight years. There appears doubt concerning his American citizenship, and the Federal authorities are said to be interested also in Sanchez to the extent of considering him a radical and an undesirable alien, subject to deportation.

STARTS FLOATER SENTENCE.

A. E. Russell, given a "floater sentence of twenty years by Superior Judge Stanford, has departed upon his exile. He was charged with having held a couple of realty dealers under the threat of a leveled revolver for a couple of heurs till finally by stratagem he was taken into custody by two officers of the law. The case was complicated a bit by Russell's appeal to the British authorities, he claiming that he was a British subject, and that adverse local influences were trying to defraud him and to railroad him to the insane asylum.

will be supplied with sufficient funds for functioning to its full limit, humanitarian, industrial and otherwise.

"One of the greatest material needs of the State of California at the present time is the building up of its agricultural industry, the basic industry of all, and which is, in this State, the pre-eminent natural industry. The agricultural production of California last year, including live stock, totaled \$630,000,000, as against \$123,000,000 for petrole-um, approximately \$55,000,000 for metals and \$30,000,000 for lumber.

"The State government has done much in the past decade or so to foster and encourage agriculture. But there remains a very great deal to do, and this should be done.

"A therough reorganization, in cluding constitutional as well as statutory units, would save, in my ludgment, \$1,000,000 a year in the matter of operating expenses alone, which means either that this money could be left in the pockets of the taxpayers and in the channels of trade, or if taken therefrom, could be used along constructive lines of material development. This waste has developed during the years, and if not checked will continue to grow, adding as it does, more and mose at the take burden.

"There is a difference in the material development if continue to grow, adding as it does, more and mose at the take burden.

"There is a difference in the material development is necessary and fundamental, for without such organization there could be no government. Money appropriated for the Department of Agriculture or for the State government is necessary and fundamental, for without such organization there could be no government. Money appropriated for the Department of Agriculture or for the State government of financing the state or farm, is, money wasted though willingly granting the honesty and humanity of the purpose behind it. There are certain distinctions that must be made when it comes to the matter of financing the State government.

"It is to be regretted that the report of the Efficiency and Economy

It is to be regretted that the report of the Efficiency and Economy Committee filed with the Governor and the 1919 Legislature, was not acted upon. It provided only for a partial reorganization along statutory lines, and made no attempt, since it had no authority to do so, to interfere with constitutional units. If it had been adopted it would have laid the foundation upon which could have been erected by the coming Legislature, or at any rate the next, the final superstructure that would have guaranteed not only a worth-while saving in money, but also largely increased efficiency. The opportunity will be open to the Legislature of 1921, and it is to be hoped that California which heretofore has led the van of progress, will join the procession in the front rank of which now stand Illinois, Idaho and Nebraska. ECONOMY NEEDED.

in the front rank of which now stand Illinois, Idaho and Nebraska.

ECONOMY NEEDED.

The time has come in California for the definite inauguration and carrying out of constructive policies, while retaining and wisely developing the best there is in the humanitarian and industrial programs so well advanced. We must have more economy and greater efficiency in government. We must do more to develop the material resources of the Stale, particularly along agricultural lines.

"And then we must stand as a solid wall against the invasion of the Oriental, with whom we cannot compete, industrially, or assimilate, and also against the coming of European immigrants who preach the policy of destruction. Both are inimical to American institutions. The cutting down of expenditures, the lowering of the tax burden, will send to attract people to California and their coming, with their capital, will aid in our material development, while our resistance to undestrable immigration will give assurance of stability and prosperity."

BISHOP BACKS MAYOR.

Nov. 18, 1920.

Dr. Henry Stauffer.

1207 West Third street.

Los Angeles,
My dear Dr. Stauffer: The very strong fetter of the Mayor of our city will, I trust, be very thoughtfully read by our citizens, and will direct the attention of many indifferent people to the demands and the necessities of the spiritual life.

I shall, of course, officially notify the priests, especially of the city parishes, to make a special effort to co-operate in making Sunday, the 18th, a general church-going Sunday.

the necessities of the spiritual life.

I shall, of course, officially notify the priests, especially of the city parishes to make a special effort to co-operate in making Sunday, the life and the co-operate in making Sunday, the life is so much religious in difference among us that every effort to bring people under religious influence should be warmly welcomed. If people do not recognise spiritual sanction to law and higher authority than the civil servants who role us, the only motive urging to good citizenship will be convenience, material gain and fear of the penitentiary. Not all three combined are strong enough to develop the highest type of citizens. Believe me, Yours very eligent.

Bankrupt Lists Assets at Six

On the ground that the District Attorney's office had not used proper diligence in securing the attendance in court of the main witness in the case of Victor Analia, accused of larceny from the person, Judge Craig yesterday dismissed the case. Craig yesterday dismissed the case.

S. S. Hahn, representing the defendant, held that the District Attorney should have placed the main witness, Ryino Villeyus under bonds to appear after a jury was drawn in the case, the first witnesses testified that the complaining witness had gone to Yuma and could not be subpoenaed. The defendant was released.

He was accused of stealing \$47 from Villeyus.

FUNERAL TODAY FOR PIONEER ANGELENO.

Funeral services for D. G. Stephens

Funeral services for D. G. Stephens will be held at his late home. Third street and Wilshire Boulevard, Santa Monica, this afternoon at 2 o'clock and will be strictly private.

Mr. Stephens came to Los Angeles in 1861, his wordly possessions consisting of his blankets, camp kit and a mule. He grew with the city and gradually accumulated a competence. In 1872 he bought the property opposite the Courthouse on Tample street, between Buena Vista and New High streets, where he established a livery stable. He later founded and was the first president of the Los Angeles and Central-avenue street car line.

For many years the Stephens home was at Sixth and Olive streets, where some of the most brilliant social functions of the array days were held.

Maybelle Roe, Who Only Smiles.

The tragic death of McCullough G. Graydon, who was fatally shot at Venice last September during a quarrel with the owners of the house which he and his family were occupying, was told in minute detail yesterday afternoon by the widow of the slain man. Mrs. Graydon's testimony, given before a jury of two women and ten men in Superior Judge Willis's court, occupied all of the afternoon session of the first day of the trial of Mrs.
Maybelle Roe, who, with Mrs. Julia Doane, Edward F. Doane and Oscar A. Bowers, is charged with the murder of Graydon.

Mrs. Graydon, a frail little woman attired in black, told in detail her version of the death of her husband, with but a few "interruptions, and then only to halt the course of a tear on her cheek. The investigation grows out of information in connection with the case which Vesper late Sunday afternoon asked the Coroner to allow him to lay before him. This had to do with orders given him by Geraldine Laffing, step-daughter of the dead man, and a stranger named Shepherd, who interested himself in the matter.

M. L. Gordon, a cousin and close friend of Mr. Thacker caused the undertaker to halt preparations for the cremation by charging that the persons who were trying to have the body cremated immediately were violating the wishes of the dead man and were not even notifying his relatives that he was dead. He further demanded what had become of the large sums in cash which he knew the aged guinsmith had in his house the day before his death.

This is the first as questing her foot. Their son, which Marshall is now with the company wants to increase its revenue in order to purchase materials for extensions. This he declares, is not so. His explanation is that the company desires to increase rates only to bring in enough money to establish credit, meet its operating expenses and make extensions to keep pace with the rapid growth of the city. The company expects to have 235,000 phones in operation in Los Angeles in 1930.

"To get the necessary money," Mr. Powley explains, "we must have earnings with which to pay the interest on money invested in our plant. At the rate Los Angeles has been growing, we may expect that her telephone requirements within the next ten years will call for an expenditure of from \$18,000,000 to \$20,000,000."

## A Nation's Fate Was Sealed -Fifty Yards From Where He Stood!

THERE was a rattling of rickshaws, and I went below. On looking over the wall, I saw that the Iapanese were going away. Hasesaw that the Japanese were going away. Hase-gawa's carriage had already gone. Koreans in court dress were fluttering to and fro. It seemed impossible, as I stood there in the moonlight behind the hedge, that the fate of a nation had been sealed within fifty yards of where I stood! The ministers had signed!" Yes, it was so. The Japanese had subjugated Korea, and a country of 12,000,000 people must bow to the inevitable.

SINGING HIGH. A 12-year-old Tacoma boy is said to have the highest voice in the world. He can easily take notes almost an octave higher than the loftiest flights of Galli-Curci. Everything seems to be coming high this season and the cost of living is affecting our voices. First thing we know we'll all be doing falsetto to keep up with the price

O Uncle Joe Cannon has been nom'asted for Congress twenty-five times, but the mawas the biggest he has ever known. He began his public life as a State's attorney in 1861 and has been in the game ever since, with a couple of brief interruptions. His present term will break the nation's rd for legislative service. At 84 he is still good for another session.

THE WAY OUT. Congressman Volstead says that his brated act can be easily amended and he thinks it ought to be. There are a lot of men who feel the same way about it, but they do not seem able to get together. In the meanwhile the law should be enforced in a thorough and efficient way and without playing favorites. That is the only way in which injustices of the law may be brought to light and their correction made

RUNNING WILD.

Over five hundred Russian Communists, who have long since been ordered de-ported, are still in this country and most of them are under ball and permitted to run wild until their transportation is ar-ranged. It is represented that the govern-ment is unable to make the necessary arrangements for their removal, but that is a mighty slim excuse for an adminis to offer. Meanwhile many of them are pubtrines. Speaking of Democratic administrations, there was a Grover Cleveland once who would not have permitted dangerous and freesponsible allens to build bonfires on his front porch.

WORTHY OF HIS HIRE. W Herbert Hoover is urging organized labor to accept the idea of having two or three wage levels in each trade. This would enable the skilled worker to be re-warded above the deadly average. There is no justice in requiring the employer to pay top scale to bottom workmen and the rule could not long apply. Mr. Hoover also prges the larger use of the shop committee in the adjustment of local grievances. A that are beyond the pale of a full-sized union. The shop committee can work as efficiently with a union as without, although scriptions are more in accord with the American or open-shop idea. The laborer is worthy of his hire, but the union doesn't penalizes the fact in a practical way. It penalizes the efficient workman for the ben-

The federation, like most labor bodies, has been swiftly passing into the control of the radicals. The leaders who could make the most arrogant demands or denounce gov-'ernment in the most incendiary terms were the ones who held control. It was neces sary for a man to be violent to command a hearing. The unions would do no work save upon their own terms. C PRIZENSHIP AND THE LAW. One of the most imperative duties of good citizenship is respect and obedience to the law of the land. A citizen is not

accorded the privilege of obeying only those laws of which he approves and which do immediately interfere with his pleasure and preferences. Even when laws are irksome and not completely just they should be obeyed while on the statute books, for the sake of all laws, for the sake of responsible government, for the sake of the selfrespect of the nation.

And this applies at the present time argently to the Volstead Act for the enforcement of the Eighteenth Amendment This act has been passed by Congress, upheld by the Supreme Court and has received indorsement of a majority of the people. And the obvious, irrefutable, duty of respect and personally obey it, no matter what their individual preferences may be The fact that many thousands of otherwise reputable citizens feel perfectly justified in evading it, if they can, cannot be condoned. If that attitude is upheld in connection with the one law it must inevitably hold good with other laws, ultimately bringing all laws into contempt and ridicule and undermining the very foundations of government.

When doctors, no matter what their pro fessional standing, abuse their privileges under the Volstead Act they are "undesir able citizens." Indeed if any citizen whose commerce or profession offers special opportunities for evasion of the law takes advantage of his privileges he is thrice as culpable as the ordinary citizen, since he is not only breaking the law, but abusing a special trust. And violation of such a trust is an offense against human principles deserving of full punishment.

Prohibition is the law of the land and Volstead Act provides for its strict enforcement. Whether one approves of prohibition is not the point. Every citizen with a spark of consideration for the honor of his country must appreciate the necessity for honorable co-operation if our government is to avoid the ridicule of the world. There can be no half-measures. Any reputable citizen who compromises with his con-science on this matter, regards the law as a joke to be held in private contempt and connives in its evasion is as much a menace to this country's honor and safety, prestige and power as the reddest rebel extant.

This country is ruled by majority vote and its basic strength depends upon respect and adherence to majority decisions and law enforcement. No house can stand that is divided against, itself, and the present wholesale violations of the prohibition amendment create a condition that may well become disastrous. When it is possible to evade one law all laws become insecure Hence at this time it is the supreme duty of all responsible and patriotic citizens to onestly co-operate in the enforcement of the Volstead Act, no matter what their private opinion of that act, no matter what sacrifices, if sacrifices they are, may be It is not a sacrifice to freakish opinion, it is not even a sacrifice of pererty can have no veritable standing with out the majesty of the law to enforce ity of justice. Any sacrifices under the Volstead Act are sacrifices on behalf of the credit and standing of our own country, its government, laws and national honor. If sacred amendments to our Constitution may be ridiculed, cheated, evaded, scorned with ment are built upon sand and cannot en-

The fact that California voted down the Harris Act, by which every State official would be legally required to participate in enforcing the Volstead Act directly, makes our responsibility the greater. We have not thereby repudiated the Constitution but rather implied our ability and prefer ence to abide by the national law without additional supervision. Our honor is the more deeply involved without the Harris Act than with it and it remains for us to prove, as a righteous State, that exceptional methods are unnecessary to invoke the Constitution of our country our shame

Citizens of California, the thing appeals ognize your special and particular respon-sibility in this crisis. Prohibition may be a rabid innovation, a tremendous experiment, an entirely new application of Fed eral supremacy; it may entail new efforts of self-control and self-denial, a new form of patriotism, but it is a part of the Con-stitution of these beloved United States to which every citizen owes a debt of honor of affection, of service and of reverence that no personal taste or comfort should ever be allowed to belittle or modify.

Which of us would willingly sell our cour among us would wish to profit by his coun of the Volstead Act amounts to just that no matter how one seeks to justify his conscience. Trifling as each small violation may appear to us severally, our collective repudiation of the Eighteenth Amend ment is plain national treachery.

Friends, citizens, countrymen, uphold the Constitution and defend it as you would your lives. That way, and that way only

A Sver since the armistice was signed the British government has been running with a swaying and jerking motion that gives an unmistakable impression of insta bility. Lloyd George and his ministers seem to have acquired a habit of giving ground when hard pressed and their govern ment rests on a system of balances and compromises. The Rock of Gibraltar no longer symbolizes the British Parliamen which is now weak where it once was were to return it would be for them a sorry

Viewing the record from a distance it i surprising that the French Foreign Of fice frequently becomes disgusted with the foreign policy of the Lloyd George govern ment. When the Poles were apparently about to lose their capital city Lloyd George said, in the course of an address to Parlia ment, that the Russian government was within its rights in invading Polish territory, that the Poles had opened hostilities and must make peace the best they could. A trade agreement with the soviet govern-ment was prepared and ready for presentation to Parliament when the Poles made their final stand, broke the soviet front and cleared their territory of the Reds.

IVILIZATION

promptly consured the Russians, congratulated the Poles and asserted that Great Britain would never, never enter into any economic or political agreements with the soviet government of Russia. France had taken this attitude ever since the soviets

signed a dishonorable peace with Germany Her opinion did not vary, like a weather vane, with the changing fortunes of the soviet armies. When the Bolsheviki were the strongest France was the most uncom-President Wilson had assured Great Brit-

would support them by making no trade nor political agreement with Russia. He said that a resumption of diplomatic relations was impossible until a government truly representative of the Russian people was established, that no self-respecting nation could sign a contract with a government that boasted of breaking its pledges. That was three months ago. British, French and Italian statesmen joined in indorsing that policy. But the information now comes from Washington that the British governnent has suddenly changed its policy and has entered into a trade agreement with Russia that is tantamount to a recognition of the de facto soviet government.

promising.

This agreement was brought forth by Russia as soon as the Wrangel forces in the Crimea were beaten. Great Britain was asked to sign on a dotted line and was informed that a refusal would be followed by soviet attacks upon the British possessions in Asia. Apparently without consulting any of her late associates the British government signed this agreement It is a compromise with the soviets that dominions: but it is a repose purchased at a price that few independent governments would care to pay.

lead. She will not have any official rela-tions with Russia until the crimes of the soviets against humanity have been expited and until there is a renewed pledge on the part of the soviets to repay the loan ade by the French people to the former Russian government.

Intimation has come from Washington that this sudden weakening on the part of the British government will not cau change in the American policy towards Russia. Italy may follow the lead of Great Britain, but France and the United States will stand firm. Trade agreements are desirable; but national honor is of more worth to the French and the American people than

American correspondents cable from Lonion that the result of the recent coal strike was a victory for the miners. They dictated to the British government the wages which they should receive. When the government hesitated the miners called a general strike and other unions threatened to go on a sympathetic strike. It was a blunt threat to freeze and starve the people of Great Britain into permitting the labor unions to dictate by violence the British

When the Lloyd George government settled that strike by yielding to threats of force on the part of the miners it simply prepared the ground for a new and still nore brutal threat on the part of the labor unions. Every time the government grants their demands the labor-unionists become more insatiate. A government that surenders to threats of force gives up the right to resist in the future. Temporary curity purchased at such a price is dearly

If the Lloyd George coalition would make a direct appeal to the people of Great Britain as a whole it would find that the labor unions are not nearly so strong as they appear to be. The temper of Great Britain is conservative. Public opinion would suport the government in a firm stand against the radical elements in the unions. The present government continues to "muddle through," but it is making no preparation for the future. It lacks a personality like that of Theodore Roosevelt. Lloyd George is an astute politician, a clever manipulaor, a finished diplomat; but he seems to lack the power of unflinching resistance when facing a real crisis. A compromising government is certain, sooner or later, to PERILS OF THE HOME.

The former king of the New York hand bookers and once proprietor of thirty-six gambling houses in Gotham is now one of Billy Sunday's associate evangelists. After more than twenty years of dallying with the pasteboards and the betting ring he has rossed over to the Lord's side and is now plucking the brands from the burning. He was one of the interesting speakers at the Laymen's Evangelical Conference. He delivers his message in the blunt Billy Sunday manner and knows all about hell through having run a dozen or so of them himself. He declares that all the policemen in the world couldn't suppress gambling. He says:

"The fault doesn't lie with the underworld. The underworld is a result. The fault lies with the homes—with the home life of church members. There's where the recruits for the city's hellholes are prepared. During the twenty years I was in the same I found that about all the men and women who filled my houses and bet themselves into ruin were the product of the homes where card playing was encourthe homes where card playing was encour-aged. It's across the friendly poker table or in the bridge game that Satan puts his fiery brand on the young men and women of America. It's in the so-called Christian of America. It's in the so-called Christian homes that the gambling fever, begins. The underworld isn't trying to drag innocents down. It doesn't have to. The homes are turning out more recruits than they can possibly handle. They can't be chased back with an ax. They've been given their education by their parents. They've got their worldly wisdom at the dances, card parties and other social diversions which feature modern social life. There is nothing in the underworld that can furnish them any surprises and they are more likely to start surprises and they are more likely to start a redder one of their own."

This reformed gambler is very emphatic in his assertion that the American home is not doing its duty by the rising generation. Through its careles thal encouragement it is creating a class who have no purpose in life save the satisfaction of their own feverish passions.

When a gambler throws away his tools and turns to the light it is quite the usual thing for him to give the American home slam for not providing the right thing in the way of an education which should keep the feet of the young in the right path.

But a little criticism of the American home will do no harm. The number of mothers who do not know where their sons and daughters are is very large. The number of those who do not give a whoop is almost as great.

After a while the reformed rakes will be telling us that home is no place for a re spectable girl.

ONE-SIDED ARGUMENT. Organized labor wants to have a hear

ing with the manufacturers of America a get-together program. If there are differences they wish a harmonious adjust-ment—at least it is so reported from New York labor-union leaders. Labor, however, wants to start out with two emphatic reservations: First, there shall be no reduction in the present scale of wages, and in the second place there shall be no recognition of the open shop. The laborites have been soldiering on the job until price costs have upset the business of the country, and now that a general shut-down is imminent they first they must have their jobs and their high wages and demand that no nonunion man shall be recognized. They forget that their own selfishness and incompetency have made the open shop the paramount issue between the employer and the em-ployed and that it is capable of substantial proof in any community that the independent workman is better off financially, socially and morally than the union member It was shown that the workers in one union who were receiving wages of \$40 a week had to pay \$10 a week as graff to the leaders of their union. It appears also that about all the unions in the building trades in New York are for blackmail purposes only, and that many a workman had to quit his job and lose his pay in order that some business agent or labor-union leech could show his ability to levy blackmail. In any ployed the open shop will be very much to A CANYON SATURNAL

POSSIBLE CANDIDATES.

Meantime several probable candidates are being unofficially discussed for the vacancy. The names of Montaville Flowers of Monrovia, Jonathan S. Dodge, chairman of the Board of County Supervisors; Councilman Ralph Criswell and C. H. Windham, former Mayor of Long Beach, will undoubtedly be presented at the coming Republican conference. An effort will be made to unite upon a candidate who is assured of the great popular support and thus avoid party division at the subsequent election.

The funeral of Mr. Van de Water will be held tomorrow, at 2 p.m., in the First Methodist Church, Long Beach. Burial will be in Sunnyside Cemetery, that city. The inquest will be held this morning at the Patterson & McQuilken mortuary, Long Beach. The firm named is in charge of the funeral arrangements.

or Commissioner Teesk will be placed in circulation Tuesday morning, it was stated today.

It was on the thirteenth and last count in the charges preferred against Chief Butterfield by Patrolman Louis M. Newbury that the Civil Service Commission chiefly based its action. In regard to this count the commission issued the following statement:

"As to the last part of the thirteenth cause of action, which alleges that Chief Butterfield is wholly incompetent and unfit to perform the duties incident to the office of Chief of Police of the city of Long Beach, we are of the unanimous opinion that these charges have been clearly and fairly proven. We each desire, however, to express at this time our sincere conviction that Mr. Butterfield is a man of clean moral character, a good citizen and

this time our sincers conviction that Mr. Butterfield is a man of clean moral character, a good citizen and a man who really has the best interests of the city of Long Beach at heart and it is with a feeling of reluctance that we have had to make the findings that have been made following the testimony in a trial covering a period of two weeks."

When informed that petitions demanding his recall were in circulation, Commissioner Peek said:

"I cannot understand why they should connect me with this decision of the Civil Service Commission. I have kept out of the fight as much as I could. I see no reason why they should attempt to fix these charges on me. I will first determine the groundwork of the petitions and then I will fight them."

Commissioner Peek stated, when notified that Butterfield had been dismissed from the department, there will be no immediate change, Acting Chief J. S. Yancey will be retained in that office until the City Commissioners and the Civil Service Commissioners have gone over the situation in the police department. It may be several days or it may be a month or two before a new Chief of Police is appointed.

INCURIVE DISPATCE.]

DETROIT, Nov. 22.—A dispatch from Washington this evening says that Eddie Clotte of this city, formerly a pitcher for the White Sox, must pay to the United States government \$2200 of the \$10,000 he received as his share for throwing the games to the Cincinnati Reds in the world's series of \$1915. The Internal Revenus Department, with a view to collecting income taxes, took up the cases of the ball players who admitted before a Chicago grand jury that they accepted bribe money.

In addition to the regular income tax, the dispatch announced in an eight-round hour. Cleveland that the dispatch announced in an eight-round hour of Cleveland that the dispatch announced to the regular income tax, the dispatch announced to the dispatch

In addition to the regular income tax, the dispatch announced, the players were assessed an added amount as a fine for delinquent payment and false returns.

Cicotte referred the matter to his attorney, D. T. Cassidy, who said it was purely a personal matter and refused to discuss it. TEAMS TO PLAY OFF

SANTA ANA, Nov. 2.—With the championship of the Orange Football League still in doubt as a result of the 7-to-7 the between Santa Ana and Fullerton on Saturday, league officials met here this afterneon and decided that the best method of determining football supremacy is for another game between the two contesting teams. A decision was therefore made that the two teams shall meet again, on the Santa Ana High School field on Wednesday afterneon November 24, and the schools are now preparing for the final clash. The winner of Wednesday's game will be matched with Santa Monica, winner of the Bay City League, next Saturday.

### CAN RICK RUIN THE MARK?

Eddie Rickenbacker, who knocked some two dozen Hun air pilots for their last loop during the recent excitement in Europe, leaves Durant Field, Oakland, at 10 o'clock this morning in an Americanized Fokker scout plane in an attempt to ruin the Oakland-Los Angeles flight record. The distance is approximately \$60 miles and with his speedy plane Rick expects to make it in three hou or less. The famous ace expects to mount 18,000 feet and ride to De Mille Field at that altitude with his engine turning over at full speed. A wire received from him last night said that he expected to arrive between 12:30 and 1 o'clock. The present record for the

COAST CONFERENCE

Manager Henry Bruce of U.S.C. goes north next Sunday night to sit in at the meeting of the Pacific Coast conference managers as the guest of Manager Lute Nichols of the University of California. At this meeting, to be held on November 29, the conference managers will arrange their athletic schedules for the following spring and fall.

The following two days the Coast conference athletics representatives will meet to ratify the work of the managers and take up such other business as shall come before the body. It is likely at this time that the question of admitting U.S.C. to the conference ranks will be taken up.

## NEW YORK STOCK EXCHANGE

(BY A. P. NIGHT WIRE.)

NEW YORK, Nov. 22.—In the ties growing out of the situati stock market today the list almost Industrial developments at home as a whole manifested an unmission of the west and South as a whole manifested an unmistakable disposition to throw off the acute depression of the last three weeks. This improvement, extending from 2 to almost 10 points in many issues, was accomplished in the face of renewed unsettlement in other markets for leading staples, notably grains and other foodstuffs.

Events over the Sunday recess were mainly helpful to the recovery of stocks. Local Federal reserves strengthened, call money dropped to 5 per cent, the lowest quotation in many months, after opening at 7 per cent and it was generally believed that many impaired accounts had been "taken over" by strong interests at private settlement.

Foreign exchange also indicated firmer conditions abroad, although London reported further distrust over the outlook for commodities \$50,000. Old United States bonds and contraction of trading in securi- were unchanged on call.

# Republic Petroleum Corporation

To the Stockholders

November 22, 1920.

Republic Petroleum Corporations

At a meeting of the Board of Directors held this day, a resolution was adopted, declaring a dividend on all of the issued and outstanding capital stock of this corporation at the rate of twelve per cent (12%) per annum on par (25c,) payable quarterly, the first dividend to be paid January 20, 1921, to the stockholders of record December 31, 1920; this dividend being for the months of October, November and December,

This company's active development policy during the past year has met with such satisfactory results that your Board of Directors believes the company in future should apply a portion of its operating profit to the payment of dividends. The above rate of dividend will amount to about one-half of the current operating profit. As the company adds to its production, this dividend rate will be increased.

For a number of months this company has been working on important plans which vitally affect the interests of all stockholders. Announcements of the consummation of these plans are expected to be made by your corporation within the very near future.

In putting the company upon a dividend basis, the Officers and Directors desire to express to the shareholders of this company their hearty appreciation of that co-operation and assistance which our stockholders have given us at all times, and which assistance has made the success of this company possible.

Very truly yours,
